

The Usability Test - Petitioner

Purpose

Validate the usability of the core system functionality for the petitioners:

- Starting a Case
- Filing a Document

Prior Research

Case Form Usability Test - Petitioner - JAN 2019 - Report

https://drive.google.com/open?id=1F5NA_io-wA6PJYjD0JR956bUnv4JoY19hOUSuhb2t1Y

Goals / Questions

Starting a Case

- Does the user understand what documents they need to have prepared to file a petition?
- Can the user easily complete the form wizard? Are the steps logically ordered? Are instructions clear?
- Is the user able to select the correct party type, case type based on the provided data?
- Does the user understand the Review Screen? Is this helpful to them?

Filing a Document

- Can the user easily locate how to file a document in a case?
- Are instructions clear? Does the user understand how to prepare their documents?
- Is the user able to locate the correct document type? How do they search for a document type?
- Can the user easily complete the File a Document form?
- Does the user understand the "extra" items that can be included? Is the helper text useful?

Testing Environment

Browser: Chrome

Scenarios / Tasks

Scenario 1 - You've received a Notice from the IRS, and want to petition the Tax Court to dispute the taxes due. You've already prepared a written petition and scanned it into your computer as a PDF.

Tasks:

1. Login to system
2. File your petition

Goal	Does the user understand what documents they need to have prepared to file a petition? Can the user easily complete the form wizard? Are the steps logically ordered? Are instructions clear? Is the user able to select the correct party type, case type based on the provided data? Does the user understand the Review Screen? Is this helpful to them?
Starting Point	Log in

Required Data	
Participant 1	Participant 2
Paper Documents - Notice of Deficiency - <Petitioner and Spouse> - Petition Form PDF (saved to Desktop) - Petition - STIN	Paper Documents - Notice of Deficiency - <Petitioner and Spouse> - Petition Form PDF (saved to Desktop) - Petition - STIN

Observation Notes
<i>General impressions of the petitioner dashboard?</i> <i>Does user read and comprehend instructions before starting?</i> <i>Does the language on the form match user's real-world language?</i> <i>How does the user navigate through the party type selections?</i> <i>Are the contact fields easy to understand?</i> <i>Does the user understand the document preview feature? Do they use it appropriately?</i>

Scenario 2 - You have an open case, and would like to change your trial location to Baltimore, MD. You called the court and was told to file a Motion to Change Place of Trial.

Tasks:

1. Login as petitioner4@example.com
2. Locate your case 201-19
3. File a Motion to Change Place of Trial to Baltimore, MD

Goal	Can the user easily locate how to file a document in a case? Are instructions clear? Does the user understand how to prepare their documents? Is the user able to locate the correct document type? How do they search for a document type? Can the user easily complete the File a Document form? Does the user understand the “extra” items that can be included? Is the helper text useful?
