Interview Questions

Background Information

- How long have you been in your current role?
- What types of clients do you usually work with?
- How many cases do you have active at the Tax Court at a given time?
 - Are they typically for multiple clients or do you have several active cases for the same client?
- Have you ever filed a petition for yourself? If yes, does your process differ in any way for that?

System Use

- Do you currently use the e-filing system yourself? Do you have someone else use the system on your behalf?
- What do you use the current e-filing system for?
- How often do you access the system? At what times of day?

- What devices do you use to access the system? Desktop/laptop/mobile? What is your preference?

Creating a Case/ Entering a Case

- How does your involvement with a case usually begin?
- If you are filing a petition for a client, what is your process?
 - *Work one at a time? Or gather several client cases and then submit/mail?*
 - How do you handle petition filing fees when submitting for clients?
- If you are entering a case after it's been started, what is your process?
- What happens when you need to remove yourself from a case?

Managing Cases

- How do you track your cases?
- Did you have a need to access inactive/closed cases?
 - How long would you need inactive/closed case information to be available to you?
- How do you track the status of cases? How did you verify the case had moved to the next stage?
- What kinds of communication/notifications do you receive from the Court about cases? What would you have liked to receive?

Filing in a Case

- After the Petition, describe your process for submitting other filings in a case
 - How did you prepare or receive those documents?
 - How do you select the type of document you need to file?
 - Do you have certain documents that you file frequently?
 - How do you upload/scan documents to be e-filed?
 - *One document as you file? Upload beforehand in bulk?*
 - How did you keep track of those documents after they are filed?
 - How did you get those documents into the system?

Dashboard

- What information would you like to see on the dashboard?

Usability Testing Case Form - Practitioner

Purpose

- Validate the usability of the Case Form for practitioners filing for clients
- Validate the usability of the File a Document flow for practitioners

Goals / Questions

Are the form instructions clear?

- Do users understand what documents should be included in the Petition upload?

Is the flow of the form logical?

- Is information presented in the order that the user expects?
- How could information be presented to make it more efficient for the user to complete the form?

Are users able to select the appropriate party type?

- Is the hierarchy and categorization of the party type information clear?
- Is the language used to describe the party types clear and familiar?

Are users able to select the appropriate case type?

- Do the notice / no notice options make sense from a practitioner perspective?
- How would users prefer to enter this type of information?

How would you expect to access case information after it has been submitted?

- What information do you need available to you to identify a case?
- What information is most important when you are reviewing a case?

Are users able to access and submit information using a mobile device?

- Are users able to complete the case form on a mobile phone?
- Can users access the case information they need from a mobile device?

Scenarios / Tasks

Scenario 1 - Notice of Deficiency; Petitioner and Deceased Spouse

You have a new client who came to you after receiving a notice of deficiency for him and his wife. His wife passed away last year.

Tasks:

1. Submit a new case for this client.

Goal	• Are the form instructions clear? • Is the flow of the form logical? • Can users find and select the appropriate party type and case type
Starting Point	Dashboard
Observations Notes	

Scenario 2 - No Notice, Interest Abatement, Corporation

Your client, who is the President of ABC Corporation, filed a request for interest abatement over 8 months ago. The IRS never responded and your client wants you to file a lawsuit against the IRS.

After you've started this case, you'll need to file a Stipulation of Facts in this case as well.

Tasks:

1. Submit a new case for this client.
2. Locate this case, and confirm you are in the correct case.
3. File a Stipulation of Facts in this case.

Goal	• How would you expect to access case information after it has been submitted • Are users able to access and submit information using a mobile device?
Starting Point	Dashboard
Observations Notes	

Scenario 3 - Viewing Docket Record (on Mobile)

You receive a call from your client, Derek Smith, and need to review one of the filings for this case. You are looking for the Request for Pretrial Conference.

Tasks:

1. Locate this case on your mobile device, and confirm you are in the correct case.

Goal	• How would you expect to access case information after it has been submitted • Are users able to access and submit information using a mobile device?
Starting Point	Dashboard
Observations Notes	

4. Find the Request for Pretrial Conference and view the document.
