

Usability Test - Docket Clerk

Purpose

Validate the usability of the core system functionality for the docket clerk role

- Document QC Navigation and Workflow
- Messages Navigation and Workflow
- Docket Record Navigation
- Add a Docket Entry Workflow
- Serve Documents

Prior Research

User Interviews - Docket Clerks - DEC 2018 [Remote]

Goals / Questions

Document QC Navigation and Workflow

- Can the user navigate easily through the Document QC boxes?
- Can the user easily determine the status of documents in the QC box?
- Can the user assign docket work items? Can they determine which items are assigned to them?

Messages Navigation and Workflow

- Can the user navigate easily through the Messages boxes?
- Can the user easily determine and locate new messages?
- Can the user easily send a message to another court user?
- Can the user easily forward a message to another court user?
- Can the user easily locate previously sent messages?

Docket Record Navigation

- Can the user locate documents on the docket record?
- Does the user understand the iconography on the docket record?
- Is the user able to distinguish between complete and incomplete docket entries?

Add a Docket Entry Workflow

- Can the user navigate through the Add Docket interface?
- Does the form contain all required and expected data points?
- Can the user easily locate the appropriate document type?
- Does the user understand how to complete multiple entries?
- Do user expectations of what happens when an entry is added match the system functionality?

Testing Environment

Browser: Chrome

Staging Site

Logins

Participant 1 - 9-10am	Craig Taublib	docketclerk1@example.com Case Digit - 3
Participant 2- 1030-1130am	Stephen Currence	docketclerk2@example.com Case Digit - 5
Participant 3 - 1-2pm	Duane Stith	docketclerk3@example.com Case Digit - 8

Scenarios / Tasks

Scenario 1 - You just arrived and log in to the system for the first time in the morning. You need to start working on the new document filings.

Tasks:

1. Login to system and see how many new documents have arrived for the Docket Section.
2. Assign the cases ending in your digit to yourself.
3. View how many documents are assigned to you.

Goal	Can the user navigate easily through the Document QC boxes? Can the user easily determine the status of documents in the QC box? Can the user assign docket work items? Can they determine which items are assigned to them?
Starting Point	Log in screen
Required Data	20 documents in Docket Section Inbox 5 of 20 documents with dockets ending in 3, 5, 8 2 documents assigned to [participant 1/ participant 2/ participant 3]

Observation Notes

--

Scenario 2: You are waiting for a response to a question you sent to a Senior Attorney regarding [docket XX]. After you receive it, you'll want to inform Judge Buch that the issue has been resolved.

Tasks:

1. Check if you have received a response in the system from the Senior Attorney regarding the [document type] for [docket XX].
2. View the message from the Senior Attorney
3. Forward the Senior Attorney's message to Judge Buch with your own note.
4. Find the last message you sent.

Goal	Can the user navigate easily through the Messages boxes? Can the user easily determine and locate new messages? Can the user easily send a message to another court user? Can the user easily forward a message to another court user? Can the user easily locate previously sent messages?
Starting Point	[Page from previous task]
Required Data	5 messages (any) 1 message [Docket xxx-xx] [Doc Type] [from Senior Attorney]

Participant 1	Participant 2	Participant 3
Docket 123-19 Doc Type- Administrative Record	Docket 135-19 Doc Type - Notice of Filing of Administrative Record	Docket 128-19 Doc Type- Motion for Audio of Trial Proceedings

Observation Notes

Scenario 3 - Counsel representing a petitioner from case 142-19 calls and informs you that they mailed in several filings and want to confirm that they have been received. The first was a Response to Motion for Summary Judgment, and the second was a Motion for Continuance

Tasks:

1. Navigate to case 142-19

2. Check to see if the two documents mentioned above have been received by the Court.

Goal	Can the user locate documents on the docket record? Does the user understand the iconography on the docket record? Is the user able to distinguish between complete and incomplete docket entries?
Starting Point	Document QC
Required Data	Case 142-19 Docket Record with at least 15 entries, including: • Petition • Request for Place of Trial • Motion for Summary Judgment • Response to Motion for Summary Judgment (paper icon) • Motion for Continuance (incomplete docket entry)

Observation Notes
<i>How easily can the user locate the two documents?</i> <i>Does the user understand what the “paper icon” means? Is this helpful in locating documents?</i> <i>Does user able to identify an incomplete docket entry? Do they understand what this means?</i>

Scenario 4: You receive a packet with several documents in the mail. These documents need to be filed in the case.

Tasks:

1. File and attach the received documents in the appropriate case.

Goal	Can the user navigate through the Add Docket interface? Does the form contain all required and expected data points? Can the user easily locate the appropriate document type? Does the user understand how to complete multiple entries? Do user expectations of what happens when an entry is added match the system functionality?
Starting Point	Document QC
Required Data	Paper documents - Motion for Continuance - Affidavit of John Smith in Support of Motion for Continuance - Date Received: 9/13/19 - Filing Parties: Petitioners (2) PDFs (need saved to desktop prior to test)

	- Motion for Continuance - Affidavit of John Smith in Support of Motion for Continuance Case Details - Party type - Petitioner and Spouse
--	---

Participant 1	Participant 2	Participant 3
Docket 118-19 Paper documents - Motion for Continuance - Affidavit of John Smith in Support of Motion for Continuance - Date Received: 9/13/19 - Filing Parties: Lucretia Spiva PDFs (need saved to desktop prior to test) - Motion for Continuance - Affidavit of John Smith in Support of Motion for Continuance Case Details - Party type - Petitioner and Spouse	Docket 104-19 Paper documents - Motion for Continuance - Affidavit of John Smith in Support of Motion for Continuance - Date Received: 9/13/19 - Filing Parties: Tyrone Hendriks and Cherie Andre PDFs (need saved to desktop prior to test) - Motion for Continuance - Affidavit of John Smith in Support of Motion for Continuance Case Details - Party type - Petitioner and Spouse	Docket 131-19 Paper documents - Motion for Continuance - Affidavit of John Smith in Support of Motion for Continuance - Date Received: 9/13/19 - Filing Parties: Sigrid Yates and Jacinda Swindle PDFs (need saved to desktop prior to test) - Motion for Continuance - Affidavit of John Smith in Support of Motion for Continuance Case Details - Party type - Petitioner and Spouse

Observation Notes
<i>How does the user work through the docket entries? Do they work from the paper document, or prefer to upload the documents first?</i> <i>Is the correct received date entered?</i> <i>Does the user understand how to add multiple entries? How do they accomplish this?</i>
